

Refined Aesthetic, Remarkable Absorption

Every day dirt and water are tracked into your building resulting in an unsightly and potentially dangerous situation that can also be costly to clean. Entrance matting can help address the problem. Selecting the right entrance matting is critical to help ensure the safety of your buildings' occupants, keeping your entranceway visually appealing and reducing your cleaning costs. Introducing 3M™ Nomad™ Aqua Plus Matting - an innovative drop-down entrance matting that features a unique, triple layer to stop dirt and moisture in its tracks. The triple layer consists of a water draining fleece securely bonded to a dual fiber top surface with a permeable and water resistant adhesive layer – a 3D void structure that allows for excellent water absorbency and minimizes retracking. 3M™ Nomad™ Aqua Plus Matting - an innovative first step towards a cleaner, safer building!

Introducing... 3M™ Nomad™ Aqua Plus

- A unique 3 layer construction that is permeable and water-resistant to help efficiently drain away water
 - Helps reduce overall floor care.
- An absorbent and permeable dual fiber tuft
 - Large, textured coarse fibers remove dirt while smaller fine fibers absorb excess water
- A polyester draining fleece layer to help ensure durability and resistance to traffic
 - Enhanced fire and smoke resistance
 - Comfort cushioning
- Solid, slip-resistant backing

3M™ Nomad™ Aqua Plus 4500

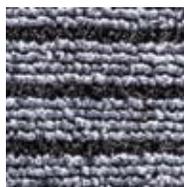

- Durable polypropylene loop pile tufted mat with a polyester draining fleece layer
- Absorbs up to 11 fluid ounces per square foot helping to minimize retracking of water and moisture
- Good dirt removal
- Ideal for indoor applications and low traffic entrances
- Easy to clean
- Solid, slip resistant backing
- Attractive striped pattern with sewn edges around mat
- Available in 5 stocked sizes: 3' x 5', 3' x 10', 4' x 6', 4' x 10' and 6' x 10'
- Available in custom lengths up to 60 feet and widths of 3 feet, 4 feet, and 6 feet
